EDUCATION

Institute of Aeronautical Engineering, Hyderabad

Aug 2023 – May 2027

Bachelor of Technology (B.Tech), Information Technology

CGPA: 8.26/10

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Technologies: React.js, Node.js

Tools: Git, GitHub

Core CS: DSA, OOP, DBMS

EXPERIENCE

Deep Learning Intern, Central Institute of Tool Design (CITD)

May 2025

- Developed an EfficientNet-based image classification model using TensorFlow and transfer learning.
- Trained on 11,000+ images across 50 classes, achieving nearly 80

PROJECTS

Nexus – Real-Time Collaboration Platform

React.js, Node.js, Firebase

- Built a collaboration platform featuring authentication, messaging, and video meeting capabilities.
- Integrated Firebase Authentication, Firestore, and real-time communication components to support user interactions.

CricSphere – Cricket Analytics Platform

React.js, Node.js, Python

- Developed a cricket analytics platform to analyze player, team, and match statistics from historical datasets.
- Built APIs and interactive dashboards for exploring performance trends and match insights.

AetherAI – Air Quality Forecasting Platform

FastAPI, XGBoost, SQLite

- Developed an air quality forecasting application using machine learning and environmental datasets.
- Built REST APIs and dashboards for AQI prediction and environmental monitoring.

ACHIEVEMENTS & CERTIFICATIONS

- Scored **97 Percentile** in Naukri Campus Young Turks 2025.
- Achieved **Salesforce Agentblazer Champion 2026** status on Trailhead.
- Oracle Cloud Infrastructure Foundations Associate (OCI).
- AWS Academy Graduate – Data Engineering.
- Artificial Intelligence Fundamentals – IBM SkillsBuild.

CODING PROFILES

LeetCode: 113+ Problems

CodeChef: 716 (Max 834)

GeeksforGeeks: 69+ Problems

HackerRank: Java, Python, SQL Badges
